International Conference on Contemporary Research on Mathematics and Computer Science (ICCRMCS-2022)

(29th - 30th April, 2022)

It gives us immense pleasure to inform you that an International Conference on "Contemporary Research on Mathematics and Computer Science" is going to be held on 29th -30th April, 2022 at our campus (Virtual/offline).

AIM AND SCOPE:

The aim of the conference ICCRMCS-2022 is to bring together Mathematics and Computer Science researchers who work in the fields of Mathematics, Computer Science, and their applications in various fields of science and engineering and to encourage collaboration and exchange of interdisciplinary ideas among the participants. We are concentrating on high-quality research papers on the following areas but not restricted to:

MATHEMATICS:

Modeling and Simulation | Operations Research | Applicable Analysis | Reliability & Life Testing | Fuzzy System and its Applications | Statistics and Empirical Research | Dynamical Systems & their Applications | Differential and Riemannian Geometry | Application of Fractional Calculus and Integral Transforms | Ordinary Differential Equation | Partial Differential Equation | Control Theory | Wavelet and its Application | Approximation Theory | Number Theory and Algebra | Computational Fluid Dynamics | Mathematical Modeling | Graph Theory | Functional Analysis.

COMPUTER SCIENCE:

Artificial Intelligence | Cloud Computing | Software Engineering | Cryptography & Network Security | Image Processing | Blockchains | Virtual Reality | Social Computing | IoT (Internet of Things) | Wireless Sensor Network | Mobile Computing | Soft Computing | Machine Learning | Data Science

Looking forward to hear from you. You are kindly requested to share the details of the conference among the research scholars, faculty members and industry persons. Other details will be shared shortly.

Best Regards,

ICCRMCS-2022 Organizing Team
