CONFERENCE OBJECTIVE

NATCOM is a two-day conference on Recent and Emerging Trends in Artificial Intelligence and Chat GPT (AICGPT, 2023), scheduled to take place on September 22-23, 2023. The conference aims to bring together researchers, academicians, students, industry experts, and AI enthusiasts to exchange knowledge, ideas, and experiences related to AI and its applications in the context of Chat GPT. It will provide a platform to present and discuss the latest breakthroughs and advancements in AI technologies, including machine learning, deep learning, natural language processing, computer vision, and reinforcement learning. Participants will explore the interaction between these technologies and different fields, such as customer service, virtual assistants, chatbots, and conversational agents. The conference will delve into the latest advancements in NLP techniques and methodologies, focussing on their application in chat-based conversational AI systems. Ethical implications of AI development, including fairness, transparency, accountability, and privacy considerations in the context of Chat GPT, will be addressed. Real- world applications of AI and Chat GPT in industries like healthcare, finance, education, and e- commerce will be showcased. The conference will envision the future of AI and its impact on society, discussing emerging trends, research directions, and potential collaboration opportunities. Its objective is to foster collaboration, innovation, and knowledge exchange, shaping the future of intelligent conversational systems.
