

Inspire Internship Science Camp

Ankit Yadav

With a view to popularize science and develop scientific approach among intermediate students of state, 'Inspire Internship 2013'. A five-day long Innovation in Science Pursuit of Inspired Research' camp was organised in Shri Ram Murti Smarak College of Engineering and Technology in collaboration with Ministry of Science and Technology, Government of India, recently.

The five-day long do is organised to inculcate interest in science, especially among students of class XI and XII. More than 200 meritorious students from various inter colleges and schools, across state participated in the program. The programme started with traditional lamp lighting ceremony by Chief Guest Dev Murti, Chairman of SRMS trust along with Aditya Murti, Trust Secretary.

Students had a gala time during the event as they realised the importance of asking questions, and clear-

ing their concepts while learning subjects like science and mathematics. Grabbing opportunity with both hands, participants from various school and colleges cleared their concepts and asked questions regarding subjects and future of re-

search activities in basic sciences among higher secondary stu-

Students realised the importance of asking questions, and clearing their concepts while learning subjects like science and mathematics

search in respective fields.

While addressing the students, Dev Murti, said, "The program is designed to

promote research activities in basic sciences among higher secondary students with sense of innovations. The objective of the five-day long camp is to create a platform for students to interact with several eminent scientists and science professors to know about avenues of science."

Addressing the large number of selected students from state, Prof Laxmikant Sharma, member of National Academy of Counseling for Science and Technology (UP), highlighted the importance of science in daily life. He also highlighted on contribution of Indian scientists in various researches across world. Motivating students, he laid emphasis on 'innovations' and asked all participants to focus on future rather than speak-

ing about glorified past. He underlined the importance of new innovations and researches as they facilitate everyone in luxurious and easy life.

Prof Sunil Bajpai, Department of Earth Sciences, IIT Roorkee; Dr Mohammad Mustakeem Abdulla, Prof TD Bhist, Prof Subash Mehra, Prof Jagannath Sahu and others were among some prominent and eminent speakers during five-day long science camp.
