"The Conference with a difference.....!"

5th-6th February 2021

The COVID pandemic has highlighted the repeated importance of knowing the basics of ventilatory care as an essential pre-requisite to managing critically ill patients.

We at SRMS are keen on promoting innovation & learning. VentiCON 2021 is a 'hybrid' event where along with didactic lectures, practical demonstration shall also be done by the training faculty online. Delegates may also join at SRMSIMS for 'hands on' experience. The faculty being highly learned yet young, the conference gives ample opportunities to the participants for ready interaction and problem-solving.

Do join for a thrilling theoretical cum practical one stop solution for all your ventilation related queries.

Prof. (Brig.) P L Prasad
Organizing Chairperson

Dr. Surabhi Chandra
Organizing Secretary

Organized by:

Department of Paediatrics

Shri Ram Murti Smarak Institute of Medical Sciences, Bareilly
