Dr. S. C. Parija

Professor

Emeritus National Academy of Medical Sciences New Delhi, India
Former Vice Chancellor Shri Balaji Vidyapeeth (SBV), Pondicherry
Former Director, JIPMER, Pondicherry

Message

I welcome you all to UP-UK TROPACON 2024 to be organized by Shri Ram Murti Smarak Institute of Medical Sciences from 19th -20th April 2024. It is focused on neglected tropical diseases (NTDs). I extend my heartfelt gratitude to the organizers for bringing together experts, researchers, policymakers, and advocates dedicated to combating these often-overlooked diseases that affect the most vulnerable populations around the world.

NTDs are a silent crisis that undermines the health, well-being, and potential of millions of individuals, primarily in developing countries. These diseases, including malaria, filaria, neglected parasitic infections, and many others, cause immeasurable suffering, disability, and death. Yet, they frequently fail to capture the attention and resources they urgently require.

Together, we have the power to eliminate these devastating diseases and improve the lives of millions, by forging strong partnerships, embracing innovation, and galvanizing political will, we can achieve the ambitious goals we set forth.

Let this conference serve as a platform to share knowledge, and a catalyst for action. Our society stands united in our commitment to the fight against neglected tropical diseases.

May this conference be a resounding success in our collective pursuit of a healthier and more equitable world.

Professor Ujjala Ghoshal

Head, Department of Microbiology
AIIMS, Kalyani

Ex. Professor & Head, SGPGI, Lucknow
Founder of IATP, U.P.-U.K. Chapter

President- UP-UK Chapter of Indian Academy of Tropical Parasitology

Message

It is with immense pleasure that we welcome you to “**UP-UK TROPACON 2024**” to be held at Bareilly, Uttar Pradesh on 19th and 20th April 2024. Shri Ram Murti Smarak Institute of Medical Sciences has been accorded the honour of hosting the 5th edition of this prestigious event.

The theme of “**Negelected Tropical Parasitic Diseases-Unawareness to Awareness**” is highly pertinent to our Country and ourselves as Clinical Parasitologists. On 31st May 2021, the World Health Assembly (WHA) recognized 30th January as World Neglected Tropical Disease (NTD) Day. This decision formalized 30th January as a day to create better awareness on the devastating impact of NTDs on the poorest populations around the world. The day is also an opportunity to call on everyone to support the growing momentum for the control, elimination and eradication of these diseases. This year in 2003-the theme was to “**Act Now. Act Together. Invest in Neglected Tropical Diseases**”

“**UP UK TROPACON 2024**” is set to celebrate excellence in Clinical Parasitology and our endeavor is to make it a most memorable event. The delegates will witness the presence of renowned national and state experts, and attendees will gain valuable insight into cutting-edge developments in the field of Neglected Tropical Diseases. From experiencing top-notch scientific deliberations to showcasing your own work from networking with your peers to exploring the most majestic sights.

We look forward to your presence, along with your family and colleagues, and are seeking your active participation for a rewarding and enriching experience, which is sure to leave you with fond memories.

Dr. Manodeep Sen

Professor - Microbiology
Dr. RML Institute of Medical sciences, Lucknow
Secretary-UP-UK Chapter of Indian Academy of Tropical Parasitology

Conference
Invitation

Dear Colleagues & Friends

It is our great pleasure to announce that we the Department of Microbiology organizing the 5th Annual Conference of UP-UK Chapter of the Indian Academy of Tropical Parasitology 2024 at Bareilly on 20th April 2024 with a pre conference workshop on 19th April 2024.

The theme of the conference is "**Neglected Tropical Parasitic Diseases –Unawareness to Awareness**". This theme is chosen due to the reason that every coming batch of doctors after completion of their academic medical career are concern about the bacterial or viral infections. These are the infectious organisms which show their impact on the patients and society in a very short span of time where as the parasitic infestations which are usually be in the form of silent pandemic & leads to very high morbidity specially in the tropical countries including India. Some of the parasitic infestations are common about which everyone is aware but some of the parasitic infestations are actually present & causing problems to the society but they are probably neglected due to the unawareness in the masses as well as medical fraternity. The purpose of this conference, after seeing the grand success of previous UP-UK Tropacon convinced us that the professionals who are working in the field must be aware with the new technologies arises in the field of diagnosis of Parasitic infectious diseases.

The conference shall be an important & meaningful event, bringing together leading Medical Microbiologists and parasitologists & other medical experts & contribute to a better understanding of current trends in the diagnosis of parasitic infectious diseases & their management. We also cordially invite post graduate students to participate in workshop, oral presentation & poster presentation competitions. The winners will be awarded with memento & certificates. The conference is also providing the platform for M.Sc. (Medical Microbiology) students, Ph.D students & the students of various other medical & paramedical subjects to share their research papers, thesis papers, posters and also to get some important insights from our eminent guest speakers.

The conference will also provide an opportunity to explore Bareilly Bazar for Jhumka and Zarodozi work and to extend your contact and communication base, reviving old friendships & building new ones. On behalf of the organizing committee we request you to register yourself as delegates & we assure you that your experience will be professionally rewarding and an unforgettable one.

We look forward for your gracious company in Bareilly on 20th April 2024 & for Pre-conference workshop on 19th April 2024.

With best regards

About SRMS-IMS

Under the foresight and efficient administration of the Shri Ram Murti Smarak trust, Shri Ram Murti Smarak Institute of Medical Sciences has blossomed into a sprawling Multi Superspeciality health center with state of the art facilities for diagnosis and treatment. Spread across a 30 Acre campus which includes a Medical college, Multispeciality Hospital, Cancer Research Institution, Hostels, Guest houses, playgrounds and a gymnasium, SRMS-IMS offers all under one roof. Apart from providing the best in terms of healthcare facilities, the institute holds the distinction for being at the forefront of social initiatives for healthcare by having two fully equipped Mobile hospitals and two home grown health beneficiary schemes for the help of the economically weaker sections of the society. The medical college offers facilities that rival the top institutions of the country, while boasting of a highly skilled and experienced faculty.

About Bareilly City

Situated on the banks of river Ramganga, it holds an important place in Hindu religion. The entire city is decked up with beautiful temples like Dhopeswarnath Temple, Alakhnath Temple, holy Majars. Famous for its Zari-Zarkari work, Surma and exquisite Bamboo furniture, Bareilly is truly a shopper's delight.

Nearby Places of Interest : Nainital, Bhimtal, Jim Corbett National Park, Ramnagar & Dudhwa Tiger Reserve, Pilibhit etc.
