Workshop Invitation

Dear Colleagues & Friends,

The Department of Dermatology & Psychiatry take great pleasure in inviting you to the "DERMA Psychiatry Conclave - 2018" at SRMS IMS, Bareilly on 31st March 2018.

The field of psychodermatology or psychocutaneous medicine focuses on the interaction between the mind, the brain, and the skin. Psychiatry is focused on the "internal invisible disease" and dermatology is focused on "external visible disease". Psychodermatology as a discipline encourages a comprehensive and humanistic approach to the management of dermatology patients with psychiatric comorbidity. The purpose of this CME is to provide clinicians a background using a biopsychosocial model for clinical assessment and management of psychosomatic aspects of dermatological disorders.

We cordially invite you all to participate actively in this wonderful academic event.
